CINETESS

This movie ticket sale system project;

01

Contains information about the films in the vision.

02

Customers who want to buy tickets can choose the session and seat of the film.

03

At the same time with the membership system can be quickly accessed customer information.

04

This system ensures that the customer does not have to provide customer information every time they buy a ticket.

05

Practical and easy-to-understand interface allows any customer to complete the transaction in a short time, prevents queuing.

Business Rules

- **Purpose:** Our aim is to ensure that the customer receives the ticket from the ticket seller according to their choice.
- **Scope:** This project makes it easier for the ticket seller to sell tickets to the customer. It contains all the details that should be included in a cinema ticket.
- **Constraint/Action:**
 - BR 1.0- Only ticket sellers can create and sell tickets.
 - BR 2.0- Ticket seller needs username and password to enter the system.
 - BR 3.0- The customer who wants to buy ticket must be a member of the system.
 - BR 4.0- Ticket seller(user) and movies information can not be modified from the program, this information is added from the database.
 - BR 5.0- This program is created only for a specific cinema, not suitable for different cinema.

HANDY

EASY TO USE
WITH SIMPLE
INTERFACE

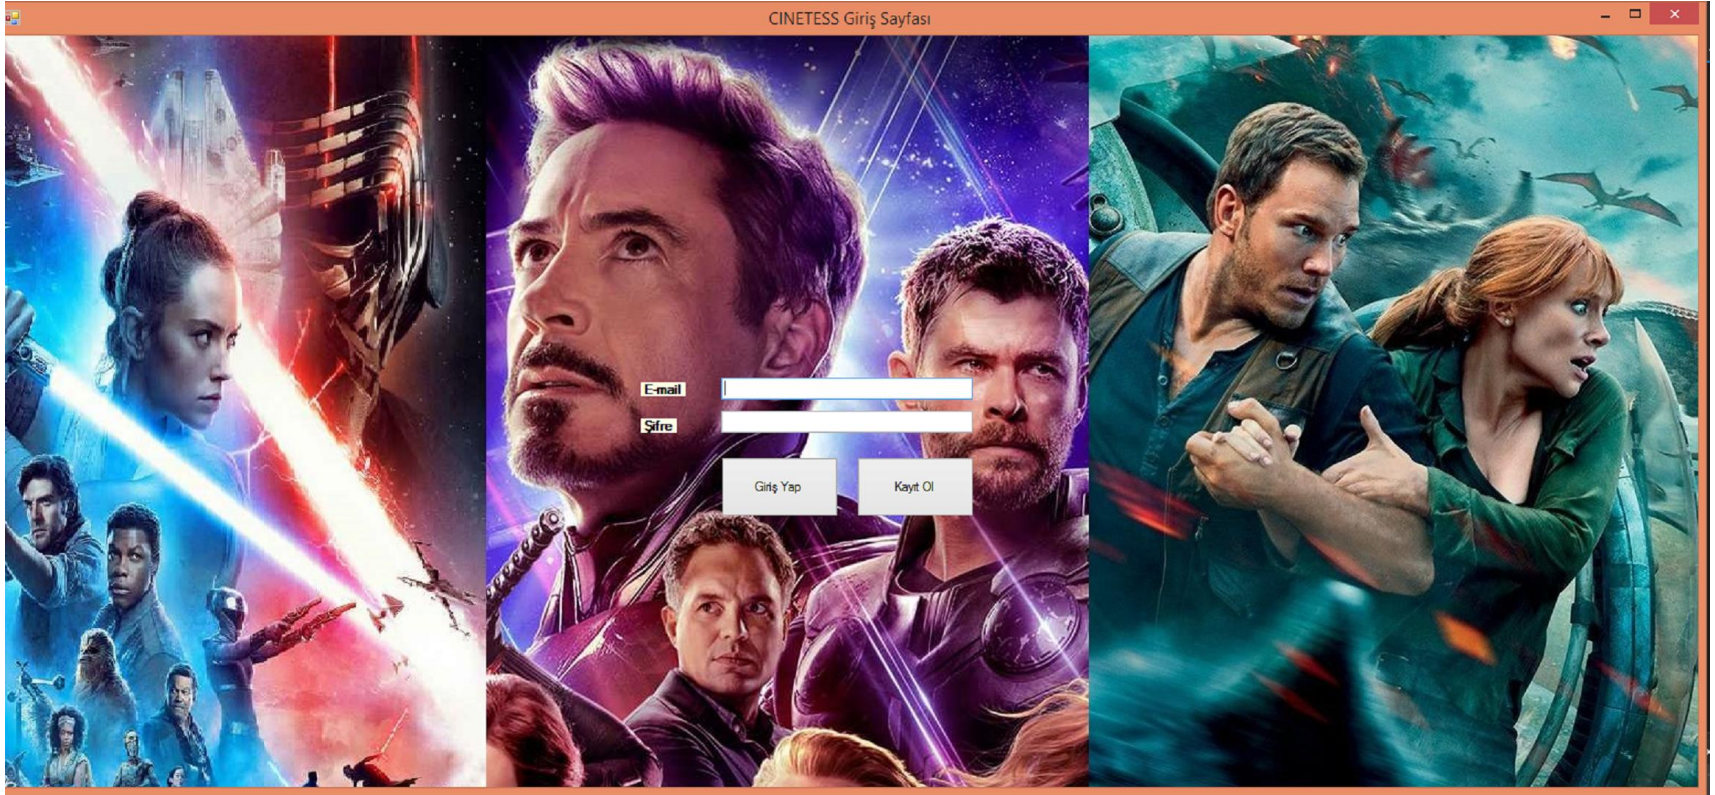

IT MAKES LIFE EASIER

Prevents queuing
and wasting time

MODERATOR SETTINGS

User can be authorized from the administrator settings in the system (example: ticket seller)

System Advantages

Easy to understand interface

It has an easy to understand interface. Customers who want to buy movie tickets can choose the session and seat of the movie they want to watch.

Authorization

Authorization can be made in the system

Fast

Queuing is prevented thanks to fast transactions

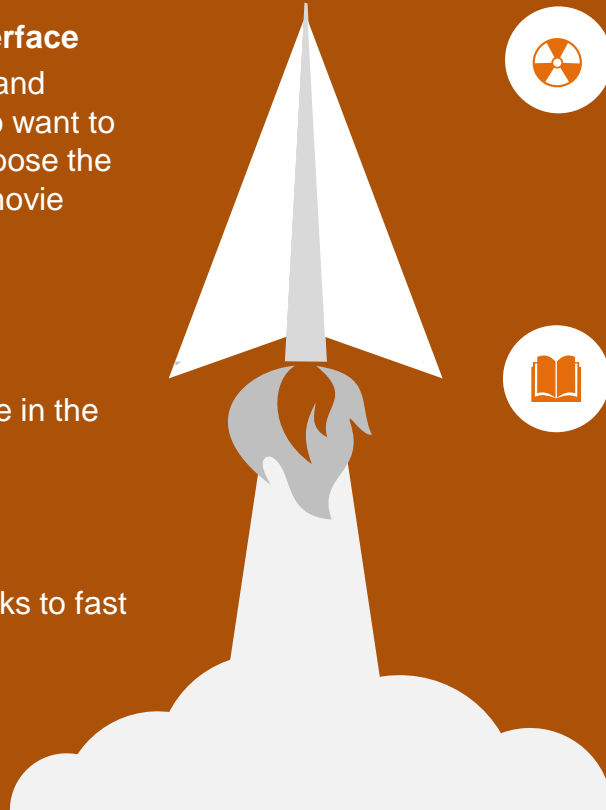

Usage

Customers who want to buy tickets can create a subscription to the system. The ticket seller can log into the system with a username and password. User and movie information is retrieved from the database.

Detailed

It contains all the details that should be included in the movie ticket. By selecting the movie we are interested in, we can get information about its description, price, release date, genre, duration and actors. If it is found suitable, we can click the buy button and buy a ticket. After selecting the date, session and members, we proceed to seat selection.

THANK YOU
